

MRS SALLY LIPSHAM
77 SELANGOR AVENUE
EMSWORTH
PO10 7LR

With regards to Planning and Development Ref. No: APP/16/00774, we wish to make our objections to this planning application known.

We believe that the majority of the bungalows in Selangor Avenue would become overlooked by the erection of the intended 2 and 3 storey houses and therefore visible from our homes and gardens and that the future residents of the Barratt homes would easily be able to see into our gardens and homes.

We would also lose our privacy, security and ambience (from the copse and wildlife) if this project does go ahead, and feel strongly that it should not.

We attended your forum on 9th June 2016, as did many residents of Selangor Avenue. We came away with the distinct impression that this was a foregone conclusion to allow the building by Barratt (quite a few slips of the tongues eg: 'when' not 'if'.

We are obviously against this proposal as it will impact greatly on our lives and of all the other residents of Selangor Avenue, especially as the majority of them are elderly. The impact will be seen from the massive increase of through traffic (2 cars per household=384cars), parking (from visitors), noise, schooling, doctors, and one of the biggest impacts will be the increase of traffic trying to access Havant Road, which is already extremely busy, especially during peak times.

We have already sent our objections by post on 25th May 2016 and 14th August 2016, and would like these to go on public record.

We hope that you will seriously consider our objections.
