Re app/18/00724. Development off.
Sinah Lane, Hayling Island.

- a) I have concerns about the proposed traffic increase that this development will engender. West Town is becoming increasingly crowded with traffic and parking is at a premium - even in the community centre. So many flats are being built & this Sinah Lane development will cause a huge increase in traffic. Also as you will know the problems of access on and off the Island are a cause of great concern especially if people are trying to get to appointments with the GP.
- b) Brent Seese !!
