Dear Sir,

Re: Proposed High Food Store, Hayling Island
Application number APP/14/00656

I would like to register my support
for the above planning application.

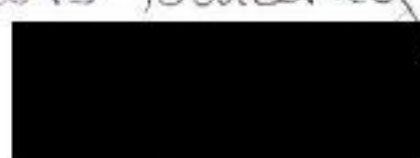

Having lived on Hayling Island for
29 years I have seen many planning applications approved which
have been, in my opinion, not of advantage to the island,
nor to its residents.

This application, in my view would be
beneficial to the island in general, as well as to its residents.

Shopping on the island seems to be
more costly in respect of many items which can be purchased
at a lower price on the mainland. This causes many residents
to travel off the island for many purchases, thus causing
additional traffic to use the road off the island which
bears for heavier traffic and frequent hold ups.

The positioning of the proposed shop
does not appear to cause any further obstructions and doubtless
will provide employment for some Hayling Island residents.

Yours sincerely

For Attention of: Lewis Oliver,
Principal Planning Officer, Planning Services,
Havant Borough Council,
Public Service Plaza, Centre Road, Havant. PO9 2AX
