Dear Mrs Haywood,

RE:- APP/18/00672. Land off Westwood Close + Longcove Lane
My wife and I moved here to Wickor Close in
2001 and were within a few hundred yards of open
countryside and it was so nice and pleasant around
here, but sadly since then we have seen several
housing estates built on our doorstep and with
traffic increasing tenfold consequently finding
much more difficult to enter Wickor Way and
New Brighton Road.

Should this huge increase in developments proceed
then we can only fear the worst and to build
in Longcove Lane is absolutely disgraceful and
must be rejected otherwise you are taking away
our green and pleasant land, our beautiful
countryside and increasing traffic by hundreds
making our roads unsafe for everyone young and
old. Our road cannot cope, our infrastructure
will not cope, our schools, doctors and much more
will not cope so please stop this madness now
and for once listen to our concerns.

Should you not listen then you will need traffic
lights on every junction leading to New Brighton
Road, right now we need traffic lights on the
junctions of Southleigh Road and Horndean Road
and that is before that large housing there is
completed or there will be a serious accident there!
we are over populated and still we are losing
our countryside so please think again - now

Yours
