Havant Borough Council
Planning Services

Dear Mr D Eaves

Ref: APP/16/01158

I currently have strong objections to the plans but I am also writing about my concerns with the new residential building and garage plans submitted by 14 Park Lane.

It has come to my attention looking at the plans closely that they are inaccurate and based on old maps. The plans submitted to the council by 14 Park Lane do not correlate with existing modifications, it already has an additional 8 metre rear extension on the original boundary line and the existing garden would not accommodate a bungalow, garage and gardens. This would definitely alter the plans submitted to the council as these do not show recent extensions and suggests that the plans have been falsely submitted.

This should be looked into further as this would greatly effect my garden outlook and daylight by obstructing it with overbuilding, and would set a dangerous precedence for others to possibly follow suit.

I am also concerned for my privacy and peaceful garden environment that will be severely hampered with, noise, car fumes, appearance and height of the new bungalow and garage.

Thank you for your consideration in this matter.

Yours sincerely,

Mrs S Eyles
