Date: 6 February 2017
Your ref: Planning application no: 17/01111

Dear Ms Emma Chisnall

My letter of objection dated 14 November has not been addressed by any of the amendments which mainly affect the northern elevation. My pressing concern is to maintain unchallenged the key features of the Orange Row development as described in the above letter.

Any changes to the use of colour, fenestration and doors must be subject to detailed design so they conform with neighbouring buildings that are part of the courtyard 'setting' of Orange Row. This particular setting is the only relevant location for this planning application within the Emsworth Conservation Area. It is difficult to see how the effects of these proposed changes can be evaluated against another unrelated part of the conservation area which may have its own unique setting

Yours sincerely

[REDACTED]

Thomas Griffin
