Dear Sir/Madam

Proposed Kidt Store, Hayling
application No. APP17/00656 } SUPPORT

This letter is to fully support the proposed new Kidt Store on Hayling Island.

Supporting

- Job creation for local people.
- Competitive shopping. No choice at present
- Supporting Britain with "Red Tractor logo"
- Encouraging & supporting sustainable development - to accord with National Policy Framework.
- Ideal local & easily accessible position.
- Adequate parking - albeit under consideration & amendment - under discussion with planning. SUPPORT
- Rain water catchment & storage. Seems adequate but understood under discussion & possible amendment. SUPPORT

General Comments

- I generally shop on the island at the Co.op in Northam - and will continue to do so. However my regular "large" shops are always off the island - either Lidl, Aldi or Tesco because of cost saving - a comparative shop saved me £30 (April 2017)
- By bringing in local competition I will use more of the local shops. This helps de-congest Havant Road
- I will not need to travel off the island so much. Better for the Environment & road congestion

Countering Negativity

I understand there are negative comments re congestion
How?? - Why??

- Currently we have congestion & unfortunately we can do nothing about it!! What is it parents taking, dropping off & collecting children at the school and the "kollipop people"? I have been held up "in the congestion" many times.
- However, people like me (south of the school) will use either Manor Road or Church Road & will turn left or right to Little and Avoid the congestion currently caused.
- Outside of school runs local people will stop as they do, if they come to Hengham the road is no more used if they go to the new store.
- Middle Island inhabitants will still continue to use the road as they normally do either north or south.
- North Hayling probably shop in Havant & will probably continue as there are kids & alcoh at the moment: next Port.
- Don Island people are not going "to rush to Little or Hayling" why? They have a store already!

Do not consider this "causing congestion" has any weight or bearing and is irrelevant.

I fully support the application & look forward to visiting our new store. I trust you will see your way clear to pass APPROVAL

Yours faithfully
