Dear Sir

Variation sought by Fair Acre – App/16/00993

We feel that the original Planning Permission should be complied with “textured glass” with obscuration level at no less than Level 4 of the Pilkington Texture Glass scale (or equivalent) and be non-opening and retained as such thereafter.

Stick on film and a promise to keep it locked is totally unsatisfactory as there is no guarantee this will be adhered to in the future.

I do hope you will consider our objections favourably.

Yours faithfully

Mrs Jennifer Stenning
