Hayling Island
Hants PO11 9PE

Dear Sirs

Proposed Lidl Food Store

The majority of my friends and colleagues find the proposal an advantage for the island. Those who do not continue to refer to traffic congestion without logically consider the situation.

Traffic

1. No cars are likely to come the Hayling to visit Lidl when they already have both Aldi and a Lidl store more conveniently placed
2. At present many families travel off the island for their major weekly shop. The presence of another local store will have the effect of decreasing this. Hence LESS TRAFFIC
3. It is noticeable that local supermarkets tend to price certain items significantly high than those on the mainland. Increased competition can only be to the good of the population.
4. The current car parking is critical and almost non existant in the centre of the island since both the Pullingers area and the Hayling Billy have been taken over for more housing

Yours Faithfully

D.A.Knight
