RE: plan. App/16/00521

for houses to be built in Sultan Road.

Can you please ensure as there will be adequate parking on the premises proposed because parking down our road is already horrendous especially in the evenings, with many people working they must come back hoping and praying for a space. I know already I've had to park else where.

The person who ~~own~~ runs the pub. is in his rights to do what he wants. We just ask the council to not make an already bad situation worse. We already have people parking in our road from North Street and people going on the train or using the pub. Our road is not DR. Who's TARDIS!!!

Your comments would be appreciated.

Many thanks.
