Dear Mr. Eaves,

Planning Application APP/16/00735.

I am objecting to the above referenced application on the following grounds:-

1. The noise levels, about which I have made objections to your department previously, have significantly increased since a 'Scaffolding for Hire' contractor moved on to the site.
2. The additional lorry traffic generated by this contractor, both morning and evenings, onto an already overloaded road capacity.
3. The original certificate of lawfulness related horse transportation only (horsebox lorries, horseboxes and trailers only). The current usage has grossly exceeded the limitations of this certificate and is more like an industrial site where anything is permitted and law enforcement does not exist.
4. The application requests permission for a lorry park. Is this for 1 lorry or 10 or 100? A lorry park on this site is totally unacceptable.

The proposed landscaping of the site would be acceptable.

I note that I was NOT informed about application APP/15/01234 despite previous objections to the usage of this site.

Yours sincerely,

[REDACTED]
Robin Blackwell.
