Mr. Gargett

I have just received a letter telling me that there is a request to fell the Oak tree in the front of our block of flats. The application does not mention any reason for wanting to destroy this beautiful tree nor does it say who will bear the cost should the application be approved. Could you answer these questions? I also note that 2 of the supporters of this application are temporary tenants in the block and not owners, how do the 4 owners who rent out their flats get to know about this application?

Roger Dicks. Flat 3.
