4.7.16.

APPLICATION NUMBER APP/16/00568.

I went to the McBarthy and Stone meeting regarding this development and was under the impression that everyone there was against more Retirement Apartments on the Island.

McBarthy and Stone seem to think that this is a 'much needed' development, but we already have several on the Island. The British impression is very overpowering and would dominate Elm Grove.

I also understand that this site was for Retail and not Residential and as we only have one Food Store in the vicinity this is what we really NEED. The plan also shows a lack of parking spaces and the small car park in St Marys Road is always full now.

I believe this Application should be refused.

Yours faithfully.
