Reference Planning Application
APP/16/00312 9 Nightingale Park Warblington

Dear Mr Eaves

I object this application for the the changing of use from storage to one bedroom flat

The last application allowed the adding of a roof+two dormer windows but did state that the storage space was not allowed to be converted to living accommodation as this was one of my main concerns last time and still is We were reassured last time that a appplication to turn storage space into a flat would never be granted

Parking will become a issue if this is allowed although I note the plans allow parking on the property. I believe because of entrance / exit not being easy parking will be in the turning aera on the road Delivery lorrys / vans do use this aera to turn daily

If this application is allowed we will be overlooked by the two dormer windows which will affect our privacy

I believe the view and ambience of a property has a great influence on its resale value and quality of life

Yours sincerely

E V Underhill
