FOR THE ATTENTION OF MRS D. HAYWOOD

Dear Mrs Haywood

Following my telephone conversation with you yesterday. My only concerns is the time its taken to build the first house (243 London Road), I really don't want it to take that long to build the one next to me (241) obviously that means 5 years of building work and it is still not done. Secondly, when the scaffolding is erected at 241 I would like for the scaffolding to be completed sheeted to stop debris, dust etc, and more importantly for builders etc, to stare in to my swimming pool [REDACTED]. Scaffolding is unsightly enough as it is without it being there longer than 6 months, especially when we spend a lot of time in the garden.

Many thanks

Jenny Farrington
