Dear Sirs

Your Reference APP/16/0036 - Re 56B Bracklesham Road PO11 9SJ

Background

This property, built after we moved here, has always been a potential gross intrusion on our privacy. (It is rarely occupied it seems.) It is a three story house overlooking two storey houses.

Originally we were shielded by a row of conifers in their garden but these were taken down.

COMMENT ON PROPOSAL

We have no objections to the ground floor proposals.

Whilst I assume we cannot oppose the replacement of the original walkway around the second floor we do oppose any increase in its size: and whilst we accept that the original wood structure was inadequate for the prevailing weather conditions, it was often damaged by storms, we are concerned lest its replacement is taken as an opportunity for a larger more extensive structure. In sum, stronger but not bigger!

Further we request that the glass used on the second floor structure shall be opaque, and at least 1.5 metres in height.

We note that when a floor was added to the next door house one of the conditions was the planting of two (silver birch) trees in the garden. This is now proving successful, in the summer, at least. Perhaps, this might assuage some of our concern if applied in this case.

Yours faithfully
