RE: Thin 1No. Oak by 30%; fell 2No. Oaks; thin 1No. Oak by 30%; crown reduce 2No. Oaks by 3m; crown reduce 1No. Oak by 2m. All trees subject to Woodland Order TPO 1253.

Dear Mr Wheeler,

Thank you for your quick reply.

A thinning of 20% to both Oaks would be agreeable and we will amend the application accordingly.

Yours sincerely,

Stuart Heasman

Hi this would be ok, but the idea was to allow more light into the garden which a reduction won't do. Plus they have already been reduced really hard so thought that thinning was the best option. May we could go with 20% thin?

Thanks Ian

Dear Mr Wheeler,

I write to you in relation to application APP/17/00245 at the above address for works to a number of Oak trees.

Having visited the site, the majority of the works applied for would be reasonable cyclical management. However, the proposed specification for the Oaks designated T1 and T3 (both are currently 'thin 1No. Oak by 30%') are considered excessive.

We would propose a specification for both trees of: **Crown reduce by 2m.**

Would you agree to us amending the application with the new specification above, for which we would recommend permission?

I would be grateful if you can reply at your earliest convenience.

Yours sincerely
