Dear Mr Eaves

We write with reference to Rook Farm, St.Mary's Road, Hayling Island and register our objection to the Planning Application for 210 No. dwellings.

Hayling Island is clearly already over developed in terms of infra-structure, schools and services and the possibility, notwithstanding constant visitors to the new dwellings, that a minimum of 500 additional vehicles will be brought to the Island on a daily basis.

With police, fire and ambulance all struggling to attend any issues on the Island at speed already, the introduction of another 500 vehicles is improbable.

There are many other issues, such as drainage, supplies, animals and welfare that need to be considered but it is a Planning Application that we strongly object to.

Kind regards

Dean, Clare, Liam, Maddison, Abbie, Callum & Owen Kimber
