Mr D Eaves,

I've just received a letter from Havant borough council reference the erection of a drive-thru restaurant on Larchwood Avenue. I have no issue with the plans but I have one concern which is already happening with the McDonald's restaurant is that there are a lot of boy racers who hang around the area speeding up and down the road from Asda to the new roundabout, would you be putting more speed humps down on the road? Because the cars are so loud revving there engines. I'm just writing this to make you aware of the noise because a new restaurant is only going to increase the noise pollution in the area.

Thank you,

Regards,

Mr J Noble
