Proposal: Erection of No. 1, 3 bed detached house with integral garage

07 April 2016

Dear Mr D Eaves

Concerning the application for the above property I wish to **object very strongly to this project**. I feel that the proposed new build will seriously encroach on my light and my privacy.

I may feel that if it was a bungalow it would be more acceptable as I would not be so overlooked and feel invaded.

As I am disabled and cannot get out very much I enjoy being in my garden and frankly with a house the size of the proposed project would make me feel like a fish in a bowl. Surely we are all entitled to a certain amount of privacy.

The space that is attached to 43 Elizabeth Road is conducive to the local wildlife we have a family of foxes living close by and many birds and squirrels which has improved over the past 18 months due to enticing them to the area.

I hope that you will take my comments into consideration.

Yours sincerely

Mrs R .Salt
