13th October, 2016.

Dear Sir,

With regard to the felling of trees on land adjacent to our property we give our full consent to this action being taken, as in 2006 a tree from that land, fell onto our roof causing a degree of damage, luckily we were not harmed but you can imagine our fear of this happening again!

The trees in question are reduction of the crown to common oak (T1) the Ash (T2) ^(TO FELL) the Acer ^(TO FELL) (T3) and the common oak (T4) ^(TO FELL) all subject to TPO 1614.

The location of these trees would directly affect us, as if they were to fall the

II

damage to our property would be colossal and may also kill us, if we were to be in the house at the same time. I am sure that you understand our dilemma and will appreciate our concerns, that the only way we will feel safe is if these trees are felled.

Yours faithfully,
