Hi there I would like to reject the planning application number APP/16/00034.

My reasons for doing so are,

- 1- I have complained in the past of excessive noise coming from the unit due to use of power tools, grinders, hammering etc .
- 2- The revving of cars and Vans and the smell of exhaust fumes coming over the fence,
- 3-The smell of paint fumes,
- 4- The worry of welding equipment.

I live directly next to the unit which up to approximately. 10 months ago was used as storage I have spent over a hundred thousand pounds on my house over the last 2 years and feel that a vehicle repair/ body shop would greatly reduce the value of my property and ease of sale.

[REDACTED]

I hope some one will get back to me and let me know what's happening, I will also contact my local councillor to see if anything can be done,

Regards Mr Barry Meech, 58 Creek Road, Hayling Island, Hants PO119RE, [REDACTED]
