29.12.2015

Dear Mrs. Haywood.

I have recently received communication from your Department on Resubmitted plans for No 3 Park Lane. As I told you in my first letter (23.08.15) my home is a Bungalow and has only had a Conservatory built across the back of it (not by me). Unlike No 3 which has already been converted from a Bungalow to a four bedroomed House. I have been to the Plaza and seen the Resubmitted plans (full scale) and although the length of the proposed extension has been shortened and the side elevation has been moved in slightly so that it no longer runs parallel with the existing side of the property. I still feel that the height of the proposed extension will still infringe on my light.

Could I request again that you as case officer can come and see me and see it from my perspective.

Yours faithfully
