Subject: Planning Application APP/15/01296

I do not think permission should be given for the following reasons,

The building is currently empty, so it is NOT a change of use, there are already around 16 cafes/coffee shops/fast food establishments in the Greywell Precinct.

Also there is no indication as to what hours this place would trade with regards to if permission was granted, or what time the staff would arrive and leave the premises or what days and times deliveries are expected.

These places encourage anti-social groups of youths in the evenings and weekends and as well as being a shopping precinct it is also a residential area and I feel that granting permission would impact on my neighbours and my own enjoyment of our properties.

Also if permission was granted, would further work be required such as extraction flues etc.-These are noisy and impact peoples enjoyment of their property.
