RECEIVED

Long Copse Lane
Ensworth
Hants

3rd April 2016

Dear Mr Weaver
re Planning Application APP/16/00001
Travellers site Long Copse Lane

We are writing to strongly object
to the above planning application.
We are worried how this would
affect the traffic and environment
surrounding this lovely narrow
country lane. The proposal would
mean large vehicles trying to
negotiate the narrow lane and
churning up the sides of the
road and ditches. The increase
in large vehicles and mobile homes
would endanger cyclists, walkers,
horse riders and also endanger

the normal flow of traffic through the line.

We are also very concerned how the proposed site would affect the already strained infrastructure of both Emsworth and Westbourne (especially Westbourne which has seen a substantial increase in traffic over the last few years).

We also feel there would be a substantial risk of flooding as the drainage system struggles to cope at present and any further development would put a considerable strain on it.

We consider that this proposed development would have a detrimental effect on the existing local community.
