19B New Cut

Hayling Island

PO11 0NB.

Ref No APP/16/00092

Dear Sir / Madam

With reference to planning application site address BETHEL, 17 NEW CUT. HAYLING ISLAND PO11 0NB, we consider this to be a gross over development on this small site. The planning application states to erect 2 three bedroom bungalows. After consulting the english dictionary it states the meaning of a bungalow is a single storey building of which this is not. After looking at the layout it is far taller than the derelict building to the left NO.15 and also it will be far taller than the bungalow on the right hand side NO.19A. Also being so close to the boundary line of 19A, the building being set back at the rear elevation, in my opinion will cut out a

considerable amount of light in NO. 19A on the west side of the lounge. Looking at all the bungalows on the north side of the road none of them are squeezed in like these proposed buildings. They are all detached bungalows with garages. There are 2 chalet bungalows that have been converted. Lets have bungalows and not houses.

Yours Faithfully
