Dear Madam,

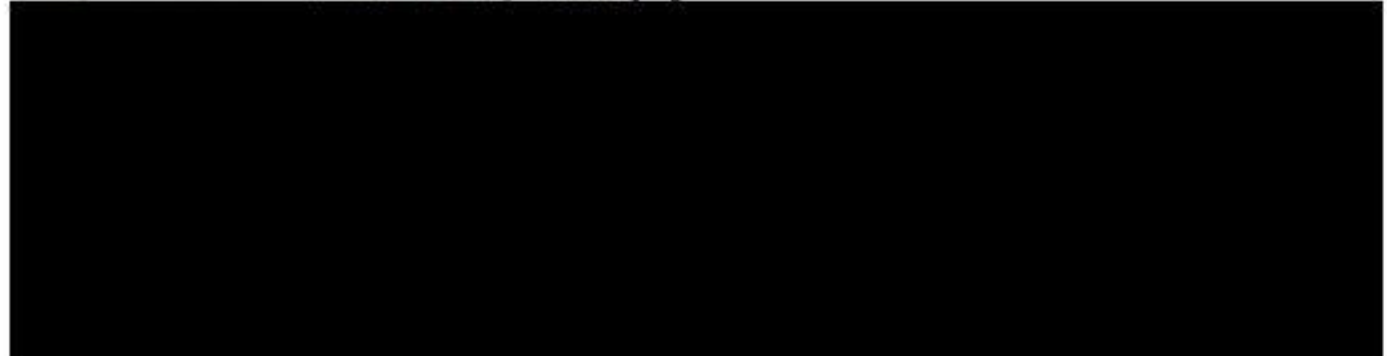

APP/15/01355 - TAMARISK, FERRY ROAD, PO11 0DG

I have just become aware of the above application to which I strongly object. I have been a regular visitor to Hayling Island over the years by road and sea and in particular to the Ferry Boat area.

The proposed dwelling is completely out of keeping with it's surroundings in size and design. Consequently, in my view, it would be a tragedy to allow such a large, unsightly, wooden box like structure to be constructed which would not blend in with the local area nor the existing houses. If approved, this would be an eyesore from both the land and sea.

I would urge the Planning Department to refuse this application and suggest to the owners of the site that they should submit a more traditional design which would follow the building line of the other houses and which would be constructed of more traditional materials.

Yours faithfully,

Mrs S.G. Bell
