

Amendment to APP/25/00668 Dated 20/08/2025

The tree in the application is believed to be a Box Elder and this application has been revised to request permission to remove the tree because it is not possible to prune to a point where the end result is attractive.

The tree has grown far beyond its specification and the neighbours at No14 and 16 have requested that it is removed. The plan is to replace the tree with a shrub of maximum height 9 foot so that cover of the corner can be achieved but it is not overwhelming to the neighbours.
