Existing Southern Water Assets

Please see the attached extract from Southern Water records showing the approximate position of our existing sewer crossing/in the vicinity of the development site. The exact position of the public assets must be determined on site by the applicant in consultation with Southern Water before the layout of the proposed development is finalised.

To get in contact to confirm the exact position of the asset please visit

Existing Gravity Sewer

The 225 mm diameter gravity sewer requires a clearance of 3 metres on either side of the gravity sewer to protect it from construction works and to allow for future maintenance access. No development or tree planting should be carried out within 3 metres of the external edge of the public gravity sewer without consent from Southern Water. All existing infrastructure should be protected during the course of construction works. Please refer to:
