

National Highways Planning Response (NHPR 22-12) Formal Recommendation to an Application for Planning Permission

From: South East Divisional Director
Operations Directorate
Southeast Region
National Highways
PlanningSE@nationalhighways.co.uk

To: David Eaves, Havant Borough Council

CC: transportplanning@dft.gov.uk
spatialplanning@nationalhighways.co.uk

Council's Reference: APP/21/01434

Location: Rook Farm, land off St Marys Road, Hayling Island

Proposal: Outline application for development of up to 300 dwellings (including affordable housing). The proposal includes provision for structural planting and landscaping; informal public open space; children's play areas; sustainable drainage system (SuDS); a new vehicular access from St Mary's Road; and associated ancillary works. All matters reserved except for means of vehicular access. Accompanied by an Environmental Statement.

National Highways Ref: 93774

Referring to the consultation dated 25th January 2022 in regard to the application referenced above, in the vicinity of the A27 that forms part of the Strategic Road Network, notice is hereby given that National Highways' formal recommendation is that we:

- ~~a) offer no objection~~
- ~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);~~
- c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);**

~~d) recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B is not relevant to this application.¹

This represents National Highways' formal recommendation and is copied to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority not propose to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via transportplanning@dft.gov.uk and may not determine the application until the consultation process is complete.

The Local Planning Authority must also copy any consultation under the 2018 Direction to PlanningSE@nationalhighways.co.uk.

¹ Where relevant, further information will be provided within Annex A.

Annex A **National Highway's assessment of the proposed development**

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

In the case of this development proposal, our interest is in the A27, in particular the A27/Langstone Road/Park Road South junction.

We previously sent detailed comments on 15th February 2022 and subsequent holding responses on 8th April, 27th May, 20th July, 12th September, 3rd November and 23rd December 2022, and 17th February and 12th April 2023 to allow the applicant more time to respond. We have not heard from the applicant or received a re-consultation request on new or updated information since this time.

Recommendation

National Highways recommends that the Local Planning Authority does not grant planning permission for this application (Ref: APP/21/01434) for a period of 56 days (until 19th July 2023) from the date of this recommendation to enable further assessment to be undertaken.

Reason: To allow National Highways to understand the impact of the development on the safe and efficient operation of the Strategic Road Network and provide the Local Planning Authority with fully informed advice.

Standing advice to the local planning authority

The Climate Change Committee's [2022 Report to Parliament](#) notes that for the UK to achieve net zero carbon status by 2050, action is needed to support a modal shift away from car travel. The NPPF supports this position, with paragraphs 73 and 105 prescribing that significant development should offer a genuine choice of transport modes, while paragraphs 104 and 110 advise that appropriate opportunities to promote walking, cycling and public transport should be taken up.

Moreover, the build clever and build efficiently criteria as set out in clause 6.1.4 of [PAS2080](#) promote the use of low carbon materials and products, innovative design solutions and construction methods to minimise resource consumption.

These considerations should be weighed alongside any relevant Local Plan policies to ensure that planning decisions are in line with the necessary transition to net zero carbon.
