Subject: FW: APP/25/00596 APPLICATION FOR APPROVAL OF RESERVED MATTERS FOR PHASE 2A AND 2B PURSUANT TO OUTLINE PLANNING PERMISSION (REF: APP/22/00172)

Hello David

Further to our conversation and previous email, my preferred planting scheme (mitigation planting) is as follows:

Southern sector:

X4 Birch as shown on plan - Heavy Standard (Nursery grown with provenance)

Northern sector:

X2 Grey alder (*Alnus incana*) Heavy Standard (Nursery grown with provenance)

X4 Bird cherry (*Prunus padus*) Heavy Standard (Nursery grown with provenance)

X1 Oak (*Quercus robur*) Extra Heavy Standard (Nursery grown with provenance)

My planting proposal aims to add interest to the site using a mix of native and non-native species that reflect climate change and sustainability goals. The trees have been chosen and positioned carefully to ensure they do not affect the foot or cycle path.

Best wishes

Jamie Gargett MICFor
