

I am writing to object to the building of properties on Rook Farm for the following reasons:

1. The increased congestion that will be caused in the surrounding roads, especially at the junction of Tournabury Road and St Mary's Road, where there already is little room for traffic to pass if you want to turn right into St Mary's Road at this junction.

2. The lack of pavements for pedestrians in St Mary's Road where we only have pavements on one side of the road, and are required to cross the road when these pavements run out. This road will become busier and pedestrians more at risk.

3. The congestion caused by school parents illegally parking at drop off times outside the school. This will become worse with more houses being built and more parents dropping off at the school.

4. The Health Centre already struggling to cope.

5. The Brent Geese that arrive every winter and graze in the fields.

6. The flooding that occurs already on the Island, which can only get worse.
