Re Planning Application  
APP/25/00979

Dear Planning Officer

I would like to object to this plan to turn a private dwelling 7-9 London Rd Witley into an HMO for up to 24 residents.

This is a totally unsuitable place for an HMO being on the corner of a very busy main road which is congested already without adding potentially 24 more vehicles to the dangerous road. It is also introducing a different development not in keeping with the area which consists of private homes not flats or HMO.

I wonder why Havant Council did not make myself & other residents who would be affected by this application aware of this. Why is it not more easily brought to your residents?

Yours
