- The eaves of the rear extension are more than 2m from the boundary
- The side extension is less than 4m in height
- The eaves of the side extension are the same as the existing house
- The depth of the side extension is less than half the width of the original house
- The proposed garage is behind the principal elevation of the existing house
- The proposed garage is less than 2.5m in height

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
