Description

The proposed pipeline will connect the proposed reservoir at Havant Thicket, which forms a separate planning application. The pipeline route extends from the Portsmouth Water pumping station at Bedhampton, northwards through the town of Havant, stopping at the reservoir. Most of the pipeline corridor is characterised by low-value road, hardstanding and amenity grassland, or poor semi-improved grassland typical of an urban setting. The pipeline corridor runs north along the Hermitage Stream before turning north-east and broadly following the Riders Lane Stream towards the reservoir site.
