Dear Sir or Madam,

APPLICATION TO DISCHARGE CONDITION 22 (LANDSCAPE & ECOLOGICAL MANAGEMENT PLAN) RELATING TO PLANNING PERMISSION REF: APP/24/00405

This is an application for the discharge of Condition 22 (Landscape & Ecological Management Plan) attached to the above planning permission.

The submitted Landscape & Ecological Management Plan (LEMP) (Document Reference no. HTR-ATK-PI-ZZ-RP-L-0001 Rev P03) has been prepared in accordance with the requirements of Condition 22 and the approved ecological avoidance, mitigation, compensation and enhancement measures set out within the Environmental Statement and subsequent supporting technical notes. The LEMP provides full details of habitat protection, establishment, management, monitoring and responsibilities relevant to the development.

For clarity, this submission relates solely to the discharge of Condition 22.

Matters relating to Biodiversity Net Gain, including the approval of a Biodiversity Gain Plan and any associated Habitat Management and Monitoring Plan, will be addressed separately pursuant to the statutory biodiversity gain requirements and the relevant planning conditions 21 and 23.

The applicant respectfully requests that the Local Planning Authority confirms the discharge of Condition 22 at its earliest convenience.

We trust that the enclosed information is adequate to enable validation and determination of the application. [REDACTED]

Yours faithfully,

Tim Snell, Consents Manager, Havant Thicket Reservoir Project
