T1 - Silver Birch - Fell.
Tree subject to TPO 1222

4. Policy Considerations

National Planning Policy Framework

Havant Borough Local Plan (Core Strategy) March 2011

DM8 (Conservation, Protection and Enhancement of Existing Natural Features

Havant Borough Local Plan (Allocations) July 2014

5. Statutory and Non Statutory Consultations

6. Publicity and Community Involvement

This application was publicised in accordance with the Council's Local Code of Corporate Governance and the Statement of Community Involvement.

7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 The tree subject to this application is a mature Birch located within the front garden of a residential dwelling, it has reasonable form, however it has been previously 'topped' but recovered well from those works, the tree is stated to be affecting the residents insurance due to the distance it is from the dwelling – this is not a material consideration when determining a tree work application. They also state that they do not like the leaves of seeds that fall from the tree – this again is not a material constraint in this instance. The Birch offers high public amenity value to the area and no technical information has been submitted with this application to provide a reason for felling.

8 Conclusion

Recommend Refuse

9. RECOMMENDATION:

That the Executive Head of Place be authorised to Refuse application APP/25/01012

Conditions:

1	The tree is a significant feature in the local landscape and appears to be in adequately sound and healthy condition. The proposed works would result in undue loss and detriment to the visual amenities of the locality. It is therefore contrary to policy DM8 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
