

TPO 0885. Planning reference APP/26/00300

Regarding my planning application.

No reduction of height.

Reduce 3 branches leaning over the rear of the house and conservatory to give 5 metres clearance.

One branch is already broken resting on the house roof.

Existing height of the tree is 14 metres. Existing width of the tree is 8 meters. Width after proposed works is 5 meters.

Reasons for work 2 avoid further damage to the house roof and conservatory

If you require pictures they are available
