

ADDENDUM

PLANNING COMMITTEE
DATE 30th January 2025

APP/23/01077 – Recreation Ground, Hobby Close, Wecock, Waterloooville

The following updates are provided in relation to the Committee Report:

Revised Recommendation:

Following publication of the Committee agenda, further discussions have taken place with the applicant regarding the requirements of proposed condition 5, and in particular the need for further clarity as to the location and timing of the aggregate testing required. As this condition has been requested by the Environment Agency, officers are awaiting further information from the Agency in order to provide the clarity required. It is therefore recommended that the final wording of condition 5 be delegated to officers in consultation with the Chairman, once the necessary advice from the Environment Agency has been received.

RECOMMENDATION:

That the Head of Place be authorised to **GRANT PERMISSION** for application APP/23/01077 subject to:

a) an agreement with the Environment Agency of the details of the aggregate sample testing to be undertaken, as required by Condition 5

and

b) planning conditions as set out in Officers' Report (subject to such changes and/or additions that the Head of Planning considers necessary to impose prior to the issuing of the decision).
