7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My recommendation relates specifically to assessing the proposed works rather than generally considering the tree's health and condition in any great detail and deals with the relevant issues that have been raised on site and in the application form. The recommendation made within this application is formed from a desktop based examination in line with BS 3998.

7.3 The tree subject to this application is a mature Lime that has been routinely managed, this application refers to this ongoing management back to the previous pruning points and is considered acceptable.
