Dear Sir/Madam,

Proposal: Single storey front and rear extensions.
Site: 30 Shaftesbury Avenue, Waterloooville, PO7 5HP.

Thank you for your correspondence. Please see our comments below regarding the above planning consultation application.

Development Site is not within Southern Water's Supply Area

The development site is not located within Southern Water's statutory area for water supply services. Please contact Portsmouth Water who are the relevant statutory undertaker.

Rear / side extension build-over/close-to a sewer:

It appears that the developer is intending to build-over/close-to a public foul sewer which is crossing the site. Building over a "public sewer" is not normally permitted by Southern Water. An investigation of the sewer is required to confirm its size and depth, ascertain its condition, number of properties served and potential means of access before any decision can be made as to whether it would be acceptable for Southern Water to allow building-over/close-to the sewer. The length of sewer to be built over under the terms of Part H of the Building Regulations dictates that the matter is determined by the sewerage undertaker, which in this case is Southern Water. The conditions and application associated with the build-over/close-to a public sewer are available at Southern Water's Get Connected service: <https://developerservices.southernwater.co.uk>.

Condition

In order to protect drainage apparatus, Southern Water requests that if consent is granted, the following condition is attached to the planning permission; prior to the commencement of

development, the developer must advise the local authority, in consultation with Southern Water, of measures which will be undertaken to protect the public sewers.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
