Havant Borough Council

Heritage Consultation Response

Date – 5/3/2026

Officer – Rachael McMurray, Principal Heritage Officer

Application – APP/25/01009

Site Address – 7 Langstone High Street, Havant

Proposal:

Proposed loft conversion with dormer window

Site / Location

The application site comprises a two-storey, mid terrace property of brick and tile construction located on Langstone High Street and within the Langstone CA.

Legislation

When assessing the proposal, the following legislation and policy context is taken in consideration.

Planning (Listed Building and Conservation Areas) Act 1990

Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires planning authorities, when considering whether to grant planning permission for development which affects **a Conservation Area,** to have special regard to the desirability of preserving or enhancing the character and appearance of that area.

National Planning Policy Framework (revised December 2024)

Chapter 16 of the NPPF relates to **the Historic Environment** including paragraphs 202-221. The following paragraphs are most relevant to the determination of this application:

Para 212 states that:

'When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance'.

Para 214 states that:

*'Where a development will result in **substantial harm to, or total loss of**, the significance of a designated heritage asset, permission should be refused, unless this harm is necessary to achieve substantial public benefits, or a number of criteria are met. Where less than substantial harm is identified paragraph 208 requires this harm to be weighed against the public benefits of the proposed development*

Para 215 states that:

*'Where a development proposal will lead to **less than substantial harm** to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use'.*

Havant Borough Local Plan (Core Strategy 2011 and Allocations Plan 2014)

Policy CS11 – Protecting and Enhancing the Special Environment and Heritage of the Havant Borough

Policy CS11 (4) states that planning permission will be granted for development which:

'Protects and where appropriate enhances the borough's statutory and non-statutory heritage designations by appropriately managing development in or adjacent to conservation areas, listed buildings, scheduled ancient monuments, historic parks and gardens, archaeological sites, buildings of local historic or architectural interest'.

Policy CS16 – High Quality Design

Policy CP16 (1a) of the Core Strategy states that:

'Planning permission will be granted for development that is designed to a high standard, which helps to create places where people want to live, work and relax. All development should demonstrate that its design:

a) *Identifies and responds positively to existing features of natural, historic or local character within or close to the proposed development site'.*
b) *Integrates with existing local landscape features, promotes wildlife and biodiversity and/or applies characteristics of the local area into the design of a scheme wherever possible to create variety and interest;*
c) *Uses the characteristics of the locality to help inform the design of the new development including heights, massing, existing buildings lines, plot widths and depths, materials and proportions of windows and doors;*
d) *Is well connected to and integrates with the immediate local area and the wider area by linking to existing pedestrian and cycle routes and encouraging people to use public transport where possible; and*
e) *The development does not cause unacceptable harm to the amenity of neighbours through smell, the loss of privacy, outlook, noise and overlooking.*

Policy DM20 (Allocations Plan) - Historic Assets

Policy DM20 states that;

'Planning permission will be granted for development proposals that conserves and enhances the historic assets of Havant. It also states that application which affect, or have the potential to affect, heritage assets are expected to provide a Heritage Statement that:

1. Describe the significance of the asset and its setting, using appropriate expertise and where necessary original survey, at a level of detail proportionate to its significance and sufficient to understand the potential impact of the proposal.

2. Sets out the impact of the development on the heritage assets and mitigation that is proportionate to the impact and the significance of the heritage asset, including where possible positive opportunities to conserve and enjoy heritage assets.

Assessment

The proposal is for a loft conversion, including the construction of a flat roof dormer on the rear facing roof elevation. The dormer would be finished with vertical tiles (in slate to match the main roof) and the roof would comprise GRP or EPDM. The proposed windows would be uPVC to match the existing rear elevation.

The dormer would be positioned centrally with the roof pitch, leaving space above and below and also set in from the side so that the chimney can be retained. This would allow the original roof to remain legible and is similar in design to several similar developments further along the terraced row. No alterations are proposed to the front roof elevation.

Overall, it is considered that the proposal would not result in harm to the special character of the conservation area, nor the setting of the nearby listed buildings on the north of Langstone High Street and is therefore in accordance with S72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 ("1990 Act"), along with the relevant policies in the NPPF and Local Plan.

Conclusion

NO OBJECTION subject to the following condition:

- Details and / or samples of external materials to be submitted and agreed by the LPA prior to construction.
