

Planning application for proposed dwelling adjacent to 26, Wittering Road, Hayling island. Comment on application.

I note with interest the proposed new dwelling adjacent to 26, Wittering Road,.

[REDACTED]

[REDACTED] I can see that the proposed new dwelling fits in well with the original house. Its location on the site reflects the angles of the adjacent properties, as you approach the site, from the south. This location minimises the overlooking factor , but allows views of the coast.

It is an excellent solution to the clients requirements, and I write in support of the application.

regards
