Description

Please describe details of the proposed development or works including any change of use

The proposed development comprises the refurbishment of the roofs of all six apartment blocks within the site.
The works include:
•Removal of existing roof coverings
•Installation of a modern high-performance felt roofing system
•Installation of upgraded thermal insulation
•Raising of existing parapet walls by approximately 200mm
The parapet increase is required to accommodate the increased roof build-up associated with the new insulation layer and to ensure adequate weatherproofing and drainage detailing.
The proposal does not involve:
•new floorspace
•extensions to the buildings
•changes to the building footprint
•changes to the residential use of the site
The architectural form and layout of the development will therefore remain unchanged.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Certificate Of Ownership - Certificate C

I certify/The applicant certifies that:

- **Neither Certificate A or B can be issued for this application**
- **All reasonable steps have been taken to find out the names and addresses of the other owners (owner is a person with a freehold interest or leasehold interest with at least 7 years left to run) of the land or building, or of a part of it, but I have/the applicant has been unable to do so.**

The steps taken were:

Advice from Jake Eaves - "In response to your enquiry, I can confirm that the Ownership Certificate A would be inappropriate for this proposal. Understanding the difficulty that may be incurred in identifying all additional owners of 60 units on site, completion of Ownership Certificate C with a copy of a notice posted within the local press would be appropriate."

Notice 2 published in Hayling Herald distributed 27/03/26.

I have/the applicant has given the requisite notice to the persons specified below being persons who, on the day 21 days before the date of this application, were owners/agricultural tenants of any part of the land to which this application relates.
