Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

We propose to replace an internal structural timber beam which has rotted, owing to water ingress from a leak.

In addition we wish to cut an inspection hatch into the ceiling and install insulation above it.

A Structural Engineer recommends a steel section clad in oak, which provides the required strength while maintaining the desired appearance. We are not proposing to replace the existing beam with another oak section, but we can obtain the necessary calculations for this, if this is a condition of the works. Please note that to satisfy modern day structural requirements the beam would need to be larger than the current one. We can provide further details on request.

We will be carrying out external remedial works to reduce the likelihood of leaks in the future. These works will not affect the appearance of the building.

Details of the pre-application advice received

From Rachael McMurray: I see that the structural engineer is proposing a new beam. As this would comprise a different material (steel and not oak), its replacement would require a listed building application.

From us: Our structural engineer states that we cannot replace the existing oak beam like for like as it is not strong enough. Please see attached correspondence for his proposals. The minimum oak section would need to be 250×250 mm to safely justify the existing load conditions. The current beam has dimensions of approximately 100 deep x 150 mm wide.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
