Hi Jennie,

Thank you for your email.

I understand the reason for your question as this was a factor in the original planning consent.

You are quite right. There is a small room at the back of the clinic which contains a number of different beauty therapy machines which we have bought over the years to provide a more holistic offering.

We have two therapists who both work part time. (20 hours per week). One of the therapists [redacted] lives in the main house and so her car is not factored into the business parking. They work on different days or times of day as we like someone to be in the clinic at all times during opening hours.

There is usually a 15 minutes gap between clients but sometimes they do arrive early. Most patients do arrive by car but some on foot. We advise all our clients to park on the property and make every effort to keep the road clear.

The most cars we would have on the property are 3 but generally it is 2 or less.

I would be happy to discuss this further with you to clarify.

Best regards,

Jon Paul Turner
