SUMMARY RECOMMENDATION:	Approve with Conditions

1. Site Description

11 Faber Close, Havant, PO9 5TW

2. Planning History

3. Proposal

Remove multi stemmed Chamaecyparis lawsoniana (T1) as heavily leaning over boundary onto fence/shed in rear garden of 11 Faber Close. Tree within G1 subject to TPO 1499.

4. Policy Considerations

National Planning Policy Framework

Havant Borough Local Plan (Core Strategy) March 2011

DM8 (Conservation, Protection and Enhancement of Existing Natural Features

Havant Borough Local Plan (Allocations) July 2014

5. Statutory and Non Statutory Consultations

6. Publicity and Community Involvement

This application was publicised in accordance with the Council's Local Code of Corporate Governance and the Statement of Community Involvement.

7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 The tree subject to this application is a mature twin-stem Lawson Cypress that is significantly leaning over into a garden area and damaging both a fence and shed. The tree itself whilst very prominent in the area is of low quality and in reality the only benefit is green cover. It's removal will abate actionable nuisance and provide the opportunity to plant a better specimen tree in a better location within the area.

8 Conclusion

Recommend Permit

9. RECOMMENDATION:

That the Interim Head of Planning be authorised to Approve with Conditions application APP/26/00204
