

Dear Kayleigh,

I'm still struggling to access the portal, so please see my comments for Economic Development below:

Whilst we are disappointed to lose an employment site in Waterlooville and the jobs that won't be replaced by this development, we appreciate the need for further housing within the borough.

With the proposed development being over the 100 dwellings threshold, Economic Development would require an Employment & Skills Plan (ESP) to work with the developer and their subcontractors that adheres to the National Skills Academy for Construction guidelines. Economic Development are happy to support the developer in writing, implementing, and monitoring the ESP to ensure that KPIs are met and jobs and skills opportunities from the development are filled by local people and organisations.

Thanks

James Maw

Economic Development Manager
