DELEGATED OFFICER REPORT

PROPOSAL	**Proposed installation of 1No new BT Street Hub, incorporating 2No digital 75" LCD advert screens, and associated BT Phone Kiosk removals**
LOCATION:	Pavement o/s 15 Market Parade, Havant, PO9 1PY
REFERENCE NO:	APP/25/00828
APPLICANT:	Mr Simon Warner
APPLICATION TYPE:	Full planning permission
CONSULTATION EXPIRY DATE:	12/01/2026
APPLICATION EXPIRY DATE:	09/12/2025
WARD:	St Faiths

SUMMARY RECOMMENDATION: Approve with Conditions

1. Site Description

1.1 The site lies within a pedestrianised part of Havant town centre within an identified shopping frontage area. The shopping area contains various street furniture including streetlights, a bin and an existing BT telephone kiosk.

2. Planning History

Is there any planning history relevant to the current application?

Yes

Planning Application APP/25/00992

Advertisement Consent for proposed installation of 1no. new BT Street Hub, incorporating 2no. digital 75" LCD advert screens, and associated BT Phone Kiosk removals – decision pending.

3. Proposal

Proposed installation of 1No new BT Street Hub, incorporating 2No digital 75" LCD advert screens, and associated BT Phone Kiosk removals

4. Policy Considerations

In accordance with Section 38 (6) of the Planning and Compulsory Purchase Act 2004, this decision has been taken having regard to the policies and proposals in the National Planning Policy Framework, the Development Plan, and all other material planning considerations identified in the Planning Considerations section of the report.

Conservation Area: N/A

5. Statutory and Non Statutory Consultations

Environment Agency – No Comment Received

Portsmouth Water – No Comment Received

Environmental Health – No Objection

The proposals seek the installation of a BT street Hub with 2no. 75"LCD screens and removal of existing BT phone kiosk.

Environmental Health has no objection to the proposals; the following condition is recommended restricting hours of construction to protect residential amenity.

Construction Hours

Construction of the development [and removal of the BT Phone Kiosk] shall only be carried out between 8:00 am and 6:00 pm Mondays to Fridays and 8:00 am and 1:00 pm on Saturdays and at no time on Sundays and Public Holidays

Reason: To ensure that the amenities of the area are not detrimentally affected by the construction of the site outside reasonable working times
Officer Comment: Should permission be granted the above condition would be imposed on the decision notice.

County Highways Team

Final Comment – No Objection

This BT Hub would not be replacing the exact location of the existing BT Phone Kiosk, as it is located slightly northwest of the BT Phone Kiosk. The BT Hub is slightly wider than the kiosk but provided it is in centre of the high street and is close to benches which pedestrians would walk around

regardless, we wouldn't consider this a significant obstruction. Therefore, there are no highway reasons for refusal as the Highway Authority believe this location will cause minimal obstruction to pedestrians.

Initial Comment- Objection

The proposed street hub is situated in a pedestrianised precinct. Both national and local policy in the form of the Havant LCWIP and HCC Local Transport Plan 4 (LTP4) seek to prioritise pedestrian and cycle movements and provide a transport system which puts people first. The location of the street hub would result in an impediment in the pedestrianised area which is subject to high pedestrian footfall.

The Highway Authority believe that these hubs are primarily an advertising board, with the purpose of generating revenue for the operator/owner and are therefore not within the spirit of the New Roads and Streetworks Act. The Highway Authority therefore advise the applicant that they would require a suitable license or highways agreement for installation and agreement on how these would be maintained, or that the applicant provide further information should they disagree with this.

The Highway Authority raises an objection to the proposed development on the basis that it is contrary to local and national policy which seeks to prioritise sustainable modes of transport..

The Highway Authority raises an objection to the proposed development on the basis that it is contrary to local and national policy which seeks to prioritise sustainable modes of transport.

Southern Gas Network – No Comment Received

6. Publicity and Community Involvement

This application was publicised in accordance with the Council's Local Code of Corporate Governance and the Statement of Community Involvement.

Publicity Type	Publicity Details	Start Date	End Date	Reasons
Site Notice	First site notice 19th Dec 2025	19/12/2025	12/01/2026	Is advertised in the public interest

Neighbouring properties consulted (as defined by the Statement of Community Involvement)

Number consulted: 46

No Comment Received.

Material planning considerations are addressed in Section 7.

7 Planning Considerations

1. Principle of Development
2. Impact on the character and appearance of the area
3. Impact on residential amenity
4. Highway Safety
5. Biodiversity Net Gain

7.1 1. Principle of Development

7.2 The site is within the defined urban area where development is acceptable in principle, subject to the following considerations.

2. Impact on the character and appearance of the area

7.3 The site is located on the pavement within Havant shopping centre and would replace an existing telephone box. Within this shopping area there is street furniture which includes a bin, a bus stop and an existing BT kiosk. The site is surrounded by a mix of shops with some residential units at first floor.

7.4 The Street Hubs are described as follows:

"*Street Hubs are free-standing structures featuring digital HD display screens on two sides. The screens display content at 10-second intervals, both the commercial content that funds the service as well as a wide range of local community and council content.*

"The two screens automatically dim at night to 600cd/m2, following daylight hours and in accordance with the levels set for this type and size of screen (those under 10m) by the Institute of Lighting Professionals, Professional Lighting Guide 05 2015: The Brightness of Illuminated Advertisements. This minimises disturbances to residents in the evening.

There is a video camera above each screen. These are not currently connected or used in the UK but are ready to deliver community benefits, after consultation and notifying the public and stakeholders through multiple channels."

"Street Hubs allow users to make free calls. Calls aren't time-limited, but almost all have lasted no more than a few minutes as people use them to call friends, family, local services, taxis, etc... unlike payphones, Street Hubs do not include or need a handset, nor accept incoming calls."

7.5 An Anti-Social Behaviour Management Plan was submitted with this application and reviewed by officers. Officers considered the provided anti-social behaviour management plan to be acceptable, and the proposal should not contribute to crime or anti-social behaviour in the area.

7.6 The Street Hub is modest in scale and is not considered to result in any significant impact on the character or appearance of the area, in accordance with Policy CS16 of the Havant Borough Local Plan (Core Strategy).

3. Impact on residential amenity

7.7 The proposed hub is at ground floor level and does not face any sensitive receptors, such as residential windows. The Council's Environmental Health Officer has been consulted over the proposal and raises no objection, with a recommendation that should permission be granted a condition as to construction hours be imposed on the decision notice. Such a condition is recommended.

7.8 Officers have no concerns regarding the location of the hub in Market Parade, or that any light spillage would be great enough to cause any significant harm to residential amenity. Furthermore, should permission be granted conditions would be imposed on the Advertisement Consent application to appropriately manage the level of illumination, particularly at night-time, to mitigate potential impacts.

4. Highway Safety

7.9 The Highway Authority was consulted and initially raised an objection to the proposal. However, following further review, the objection was withdrawn, with the Highway Authority confirming that there are no highway reasons for refusal, as the proposed location is considered to cause only minimal obstruction to pedestrians. The Local Planning Authority concur with this assessment.

5. Biodiversity Net Gain

7.10 The proposed development falls within the scope of works that are exempt from the mandatory Biodiversity Net Gain (BNG) requirement. Government guidance confirms that developments which do not impact any priority habitat and which affect less than 25sqm of existing on-site habitat, or less than 5m of linear habitat, are below the threshold at which BNG applies. The installation of a BT Street Hub within an established hard-surfaced pedestrianised area would not result in the loss of any habitat, nor affect any priority habitat. As such, the development meets the criteria for the de-minimis exemption and a BNG assessment is not required.

8 Conclusions

8.1 The proposed installation of a BT Street Hub within Havant town centre is considered acceptable in planning terms. The development would sit comfortably within the existing street scene, where street furniture is already an established characteristic, and it would not result in any material harm to the character or appearance of the area. There are no identified adverse impacts on residential amenity, and the level of illumination can be appropriately controlled by conditions in the consent application. The Highway Authority has confirmed that the proposal would not give rise to any unacceptable obstruction to pedestrian movements within the pedestrianised area. In addition, the proposal meets the criteria for exemption from mandatory Biodiversity Net Gain requirements, as it does not affect any priority habitat and lies wholly within an existing hard-surfaced area. Overall, the development is compliant with relevant national and local planning policies, and therefore conditional planning permission is recommended.

9. RECOMMENDATION:

That the Interim Head of Planning be authorised to Approve with Conditions for application APP/25/00828

Conditions:

1	The development hereby permitted shall be begun before the expiration of 3 years from the date on which this planning permission was granted. **Reason:** To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.
2	The development hereby permitted shall be carried out in accordance with the following approved plans: <u>Plans</u> 001 Rev A Location Plan 002 Rev A Proposed Site Plan 003 Rev A Proposed BT Streethub Elevations 003 Rev A Existing and Proposed Elevations <u>Supporting Documents:</u> Cover Letter dated 28th August 2025 BT Street Hubs Beyond Connection BT Street Hub Anti-Social Behaviour Management Plan Version 3 BT SH 3.0 Screen Testing for CCTV Overexposure & Glare - (March 2025) Professional Lighting Guide 05/23 The Brightness of Illuminated Advertisements Including Digital Displays. Declaration of Conformity with Public RF Exposure Guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP) Agent's response to the Highway Authority – uploaded 7/1/26 **Reason:** - To ensure provision of a satisfactory development.

3	The development hereby permitted shall be managed in accordance with the BT Street Hub Anti-Social Behaviour Management Plan Version 3, unless otherwise agreed in writing with the Local Planning Authority. **Reason:** In the interests of crime prevention and civil amenity, to comply with policy CS8 of the Core Strategy.
4	Construction of the development (including the removal of the existing phone kiosk) shall only be carried out between 8:00 am and 6:00 pm Mondays to Fridays and 8:00 am and 1:00 pm on Saturdays and at no time on Sundays and Public Holidays **Reason:** To ensure that the amenities of the area are not detrimentally affected by the construction of the site outside reasonable working times in accordance with Core Strategy Policy CS8.

Informatives:

1	In accordance with paragraphs 38-50 of the NPPF Havant Borough Council (HBC) takes a positive and proactive approach and works with applicants/agents on development proposals in a manner focused on solutions by: Offering a pre-application advice service, and Updating you of any issues that may arise in the processing of your application and where possible suggesting solutions In this instance: You sought and were provided with pre-application advice, You were updated about issues after the initial site visit.
2	Highway Authority Following the grant of any planning permission by Havant Borough Council as Local Planning Authority, separate approval will be required from Hampshire County Council, as the Local Highway Authority, for the implementation of the BT Street Hub within the public highway. These works must be authorised through a Section 50 licence, details of which are available at: https://www.hants.gov.uk/transport/licencesandpermits/roadopening.
