

APP/26/00154 Objection to pedestrian and cyclist access into Brightside,
Waterlooville, PO7 7BA (Masterplan Access & Movement Page 35)

In response to the planning application on the land of former J.F.Goodwillie Timber Centre, I object to the proposed pedestrian and cyclist access into Brightside.

The access is not in the best interests of Brightside residents. The new development should not be prioritised over us.

Brightside will become a rat-run for motorbikes and e-bikes and our road will be used by the new development for parking cars/work vehicles. Street parking in Brightside is VERY limited.

I am a resident of Brightside and I object to any pedestrian and cyclist access from the Land at Former J.F.Goodwillie Timber Centre into my road.

There is no need for anyone on foot or 2 wheels to use Brightside for access. It is not necessary and a really bad idea.

I object to changing the nature of Brightside from a cul-de-sac into a rat-run.
